At RTW Sourcing Ltd., sustainability goes beyond just using eco-friendly materials. It is a responsibility across the entire value chain. We actively support and promote better practices from sourcing to delivery, focusing on reducing impact and improving every stage of the process.

We support the Better Cotton Initiative (BCI), which aims to improve global cotton production for the people who grow it, the environment it depends on, and the future of the industry.

We follow OEKO-TEX® standards to ensure that our products are tested and certified free from harmful chemicals, making them safe for human use.

We adhere to the Global Organic Textile Standard (GOTS), which ensures organic fibers are processed under strict ecological and social criteria. The entire supply chain is independently certified, promoting transparency, sustainability, and responsible production.
